

Stop That Indigestion!

Kodol will do it. If it fails it costs you nothing.
All forms of Dyspepsia can be traced to Indigestion.

Indigestion hurts in so many different places.

There may be simple discomfort in the mouth, stomach or bowels—this is just the beginning. The use of Kodol should be the end.

You may have pains in the head or be attacked by an overpowering sleepiness in the daytime and wakefulness at night.

You may have aches in the joints, trembling in the limbs, bowel troubles, heart palpitation, disordered nerves—even falling hair.

The thing is to keep the digestive apparatus right—then you will be right.

Kodol will do this.

Try it the next time you feel bad from whatever cause. If the trouble comes directly from indigestion, it will be over almost as soon as you have swallowed a spoonful of the liquid. Kodol will tone up the system.

Kodol is a liquid because nothing in dry form can be so readily absorbed as to do all that Kodol does. Because it is a liquid, Kodol reaches the spot quickly. Kodol relieves all pain anywhere in the digestive tract, almost instantaneously. Kodol takes care of all undigested food wherever found. It works as Nature does, extracting the nourishment and expelling the refuse so that the body gets all the benefit of every bit of food taken into the mouth.

These are facts. Prove them by a free trial of Kodol.

Kodol is as harmless as it is helpful.

There is nothing mysterious about it. We have perfected a liquid which duplicates as exactly as possible all that Nature supplies for digestion. We called it Kodol and now tell others about its value.

There is nothing like Kodol; nothing but Kodol which will do the work which Kodol does.

There is no other digester, which will take the place of any or all of the digestive processes. There are some which will take care of one or two classes of food. There is not one, but Kodol, which will always supply any element needed, no matter what it is. No other will entirely and naturally relieve stomach and bowels.

Indigestion must end entirely if all the digestive functions are to be resumed. Kodol begins its work as soon as it is taken into the mouth. It continues in the stomach and intestines. It mixes with food and begins digestion as quickly as the same elements do when supplied by the natural digestive apparatus.

Food then can't ferment. It can't harden and irritate the delicate membranes of the stomach.

Kodol in the home, means healthy stomachs.

Healthy stomachs, mean clear brains and strong bodies.

Clear brains produce good work. Strong bodies make life joyous.

These are facts. Prove them by a free trial of Kodol.

Our Guarantee

Go to your druggist today and get a dollar bottle, and if after using the entire bottle you can honestly say, you have received no benefit from it, return the bottle to the druggist and he will refund your money to you, without question or delay, and we will pay the druggist the price of the bottle purchased by you.

Don't hesitate, every druggist knows our guarantee is good.

This offer applies to the large bottle only, and to but one in a family. The dollar bottle contains 2½ times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

ple away from agricultural work and there seems a very feeble tide in the other direction. There are many boys and young men who are doing no good in the cities everywhere and not a few of these in the better atmosphere of rural life. It is not only a waste of themselves and others, but many would at least cease to be a menace to society. A very practical direction for philanthropy to take would be to contrive some way to get these persons—not the vicious so much as the hopelessly poor—into the country, but there is now little movement in that direction.

A Problem.
Please solve for me this little problem: What number would show remainder of 1 when divided by 2, 3, 4, 5 and 6, and no remainder when divided by 7?

If the required number will leave a remainder of 1 when divided by 2, 3, 4, 5 and 6 it will leave the same remainder when divided by the least common multiple of these numbers, or 60. So the problem may be simplified by the statement that there is a number which is divisible by 7 and which leaves a remainder of 1 when divided by 60. Suppose "x" represents any number of times, say, 7. Then the required number will be 7x, and 7x will be divisible by 60 and you will obtain the equation 7x-1 = where "n" represents an integer. If the first side be divisible by 60, 7x-1 must be equal to 60 or 120 or 180 or 240 or 300, etc., and 7x must be 61 or 121 or 181 or 241 or 301, etc., and it remains only to select such of these values as may be divisible by 7. By examination the value 301 is found to fill the conditions.

Planting a Seed.
Can you give me any reason why my seed will not float? I am told that it is hung wrong.

In arranging the float line it is, of course, possible that you may not have placed the cork at the proper interval along the top line the difficulty does not lie in the arrangement of the corks, but in the fact that the seed does not carry floats enough.

Santa Fe.
Please tell me the register of mercury in winter and summer at Santa Fe, New Mexico. J. G. E.

Very rarely lower than 40 in winter and often as high as 105 or 106 in summer. The hot water is better because of the absence of moisture in the air.

Poems, Etc., Wanted.
There is request for "Sister and I," "Papa's Letter," "Yesterday," "Faded Flowers," "The Quirrelle from Rigotia," "Julia Ward Howe's Battle Hymn of the Republic," "Frank Campbell's Cowboy's Song," "Ten Thousand Cattle Starving." Will some one be kind enough to send copies?
With thanks to the senders, the poems asked for lately are given below:

When You and I Were Young.
I wandered to-day to the hill, Maggie,
To watch the scenes below;
The creek and the creaking old mill.

As we used to long ago,
The green grove has gone from the hill,
Maggie.

Where first the daisies sprang,
The creaking old mill is still, Maggie,
Since you and I were young.

CHORUS.
And now we are aged and grey, Maggie,
And the trials of life nearly done;
Let us sing of the days that are gone,
Maggie.

When you and I were young.

CHORUS.
A city so silent and lone, Maggie,
Where the young and the gay and
In polished white mansions of stone,
Maggie.

Have each found a place of rest,
Is but where the birds used to play,
Maggie.

And join in the songs that were sung,
For the song is as they, Maggie,
When you and I were young.

CHORUS.
They say I am feeble with age, Maggie,
My steps are less sprightly than then,
My face is a well-written page, Maggie,
But time alone has the pen.

They say we are aged and grey, Maggie,
But to you're as fair as you were,
Maggie.

When you and I were young.

The Shadow of the Pines.
We wandered in the shadow of the pines,
My love and I,
As the wind was blowing freshly from
the south.

But a sudden fitful darkness stole
across the summer sky,
And a shadow came between my love
and me.

Some hasty words were spoken; then
almost unawares,
Hasty answers to unthinking anger
came.

And our hearts sick, bitter, longing
and our weeping and
Our prayers never can make those
false and cruel words unsaid.

CHORUS.
Come back to me, sweetheart, and love
me as before;
Come, and leave me never more;
On life's dull pathway, the sun no
longer shines.

Come, and love me in the shadow
of the pines.

You took the ring I gave you, nor
cast a glance at me,
As you held the jeweled trinket in
your hand.

Then you turned and tossed it from
you in the waters of the sea,
Where the waves were splashing idly
on the sand.

You went your way unheeding, the
tears I could not hide;
You said: "I am not a word
to you."

And my stubborn heart was breaking
underneath its mask of pride;
And the love I loved so dearly
was dead.

CHORUS.
Awake from bitter dreaming, but to
call aloud your name;
I sleep again to dream of you once
more.

And my stubborn heart has left me;
I admit I was to blame; forgive me,
And the love I loved so dearly
is dead.

For the future is overshadowed by
the darkness of despair;
In the sky of love life's sun no
longer shines.

And I give this whole world gladly
Once again to meet you there reunited
In the shadow of the pines.
CHORUS.

"Company" and Mail Orders.
Is there any license for a mail order business in Virginia, and is there a special need to have license if the word "company" is used in the style?

A. B. C.

The only State tax is the usual merchant's tax on the amount of value of stock carried. The Commissioner of the Revenue for your city is the best authority.

Grammatical.
Of the two forms, "Regretting that I had given you and I so much trouble," etc., and "Regretting that this order has given you and me so much trouble," etc., which is right?

E. W. L.

The latter.

State Fair.
Please inform me when the last State Fair was held in Virginia.

The week beginning October 5, 1908.

Postal Law.
Is it against the law to send through the mail investigation to a card party where prizes are to be played for?

It would seem ridiculous to suppose so.

Training a Setter.
How does one train a retrieving setter not to mash birds?

A READER.

Yard train him on an object of the proper size and shape, buying a "chance" for the bird's head and neck, and having the body stuck with small nails. He will soon learn to fetch by the handle and bring in his birds by the head.

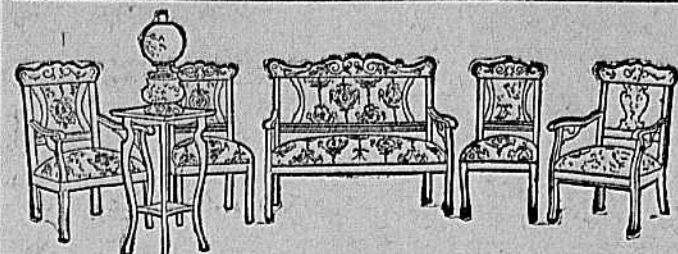

Differ from, Etc.
Which is the correct form, "Differ from you," or "Differ with you"? Is it correct to speak of pupils in a school as "scholars"?

As regards the first matter, the usage is by no means fixed, and the variety of the English use is a reflection of the lack of exactness on the point in some of the older languages. It might be the safest to say that the form, "Differ from you," means that

Foreign Exchange.
I desire to remit subscription for a foreign paper, \$5.00. How much shall I send?

T. TUCKER.

The value of the amount in United States currency is about \$188. You will have to get exchange from one of the banks here and they will charge you a small commission for the accommodation.

Coins, Etc.
There are lists from A. L. S. T. N. and Dudley with nothing of value. The piece listed by Mrs. W. W. Carrington is of value if it really is a two-dollar piece. It is almost certainly a quarter eagle (\$2.50) and in that case, has no premium value.

Barkis is Willing.
Where did the expression of "Barkis is willing" come from? W. W. P. Dicken's David Copperfield.

Duty of Coroner.
Is it not the duty of the coroner of a county to view the remains of a dead person found in the road and to attempt to come to some conclusion as to the means by which he met his death? To whom should complaint be made of neglect of such duty? Mrs. B. G. It is. The Commonwealth's Attorney for the county.

An Address.
How would I obtain the present address of T. T. S. McDaniel, who joined the army in 1907? A READER.

The only suggestion involved in your statement is that you write for it to the War Department, Washington, D. C.

Miss Johnston.
Please tell me whether there is a scene in the "Prisoners of Hope" and give Miss Mary Johnston's address.

Queries and Answers

Address "Query Editor, Times-Dispatch, Richmond, Va." Sign real name. Give, if desired, fictitious name for publication. Persons asking for poems, etc., should send stamp.

The Language of the Tribe.

Please inform me what is meant by the phrase, "the language of the tribe."

J. L.

Speech of the "graveyard" order, intended to "go no further" of the soul, likely to be employed among unscrupulous politicians in discussing their private ends. The phrase is well chosen seeing how many terms—Tamm, warm, brave, sullen, but chief, mug, tramp, etc.—have come to our political vocabulary by Indian suggestion.

Lincoln's Father.

Two weeks ago, in reference to the father of Abraham Lincoln, this column said that he was unidentified. Many letters have been received intended to clear this matter up, and inviting attention to statements in encyclopedias, hand-books, biographies, histories, etc., most of which have been entirely well known to the Query Column ever since they were published. The trouble about these "identifications" is that they implicate a number of different men and the condition of absolute knowledge on the subject does not seem to warrant any invidious selection among them. Just here is a good place to refer to T. W.'s inquiry whether Jefferson Davis and Abraham Lincoln were closely related and to reply that one of the lines of paternal descent upheld for Lincoln involved this relationship. Again, however, there is not abundant information obtainable on the subject.

Phelps and Rickenbach.

Can you give me the full names of Colonel Phelps and Colonel Rickenbach, of the Federal army, engaged around Point Pleasant, Ohio, in 1862?

Abner J. Phelps, as to the other name there is some error. No officer named Rickenbach was in the Federal service at any time so far as the war records show. There was an officer of the quartermaster's service, B. C. Rickenbach, but he does not seem to have been at any time engaged at Point Pleasant.

Baffin's Bay.

Please tell me how Baffin's Bay got its name? Would not part of this sort be copied in the school geography?

M. M.

The discoverer was William Baffin (1619). Not until 200 years later in the expedition of Ross and Perry was full recognition of the statement of extent, etc., made by Baffin. They certainly should.

Southern Papers.

Please give the names of several of the principal papers published in the South. How may I get sample copies?

Some leading papers are: Raleigh (N. C.) News and Observer; Charleston (S. C.) Post; Atlanta (Ga.) Constitution; Mobile (Ala.) Register; New Orleans (La.) Picayune; Jacksonville (Fla.) Mon. Herald. Apply to above for sample copies.

Commercial Agencies.

Please give me the address of several commercial agencies. A READER.

Dun's, Richmond, Va.; Bradstreet's, Richmond, Va.; Richmond is not the principal office of either agency, but

the offices here will doubtless answer your purpose.

Engineers.

Are civil engineers in demand? To whom should one apply for a position?

A.

There are probably more civil engineers at work in the world now than ever before. You would apply for a position wherever you wanted one. All railways keep up engineer corps, all cities, all considerable contracting firms, the United States employ a good many and some are said to be needed to-day in the canal work at Panama.

Sale of Liquor.

Is there any law—Byrd, Mann or any other—to prevent a liquor firm from sending representatives to dry districts to take orders for liquor to be shipped? I have tried everywhere else to get the information.

G. P. A.

It seems certain that the action of the representative would have to amount to a sale in order to render him liable. If he only took orders and collected no money and delivered no goods it is pretty certain that his action would not be construed as a sale. However, many of the points involved in the recent liquor legislation have not yet come for review before the Supreme Court, and lawyers in considerable opinion on them.

Bank Profits.

Please inform me what net profit a bank makes when it receives government deposits guaranteeing same with equal collateral.

J. K. J.

In general, a shade under two per cent.

Mixed Schools, Etc.

In how many States are there mixed schools (whites and blacks in the same school)? How are the banks of the Panama Canal kept from falling in?

KICKER.

Virtually all the Northern States and most of the Southern States have mixed schools. As to the Panama Canal, it would have to consult the latest code in each case to make sure and the codes may not be found here. There is no reason why they should "fall in."

Jessie L. Doyle.

Jessie L. Doyle left Virginia years ago and settled in Indiana. This is all we know of him and we should be pleased to have some suggestion as to the best means of advertising to locate him.

J. G. D.

The News, Indianapolis, Ind., is the most widely circulated paper of the State. An advertisement in that journal would, it appears, be most likely to attract his attention.

Railway Mail Service.

Please inform me how to get fullest information touching the next examinations in Richmond for U. S. railway mail division and map of the 3rd U. S. mail division.

N. D.

If you will ask by letter to the Post Office Department, Washington, D. C., you will promptly get what you desire.

Fourth Estate.

Please give exact statement of the meaning of the term "Fourth Estate."

BENJ. HOBBS.

The three recognized "estates" of France were the Nobles, the Clergy and

the Commons. The States General called by Louis IX. in 1255, the reconstruction of affairs was designed to be modeled on the old States General of 1614, for such a gathering had not been witnessed since that date, but with vast stir and discussion of the rights of the "estates," the third, that of the Commons, organized itself into the National Assembly within some forty days after the opening of the Congress. Its 621 deputies overhauling the 255 Nobles and the 300 ecclesiastics. From the acute interest among the people as to the matter of "estates," and from the vigor and number of the efforts in newspapers and pamphlets, who almost unanimously advocated the cause of the Commons, Marat, Merle, Carra, Desmoulins and a host of other able writers on current events, mainly newspaper men, got to be named "the fourth estate."

Sentile Exposition.

How can one get work at the Seattle Exposition? JACK.

Write to Frank P. Allen, Director of Works, Seattle, Washington. Your other question needs to be passed on by a skilled veterinary and reply will have to await his decision.

James River.

Please tell me how far above Richmond the James is navigable.

G. L. PEABODY.

Navigation stops at Richmond.

Various.

Is there a dead letter office in any of the States—Richmond, New York, Philadelphia? How can one remove wants? What is the name of the managing editor of the Times-Dispatch?

L. A. PEABODY.

The dead letter office is in Washington. Too much depends on circumstances. Ask your physician, Allen Potts.

Army and Navy.

Where was the army and navy football game played last year? What was the score? Was there a charge, and if so what was done with the money?

RODNEY.

At Annapolis, 4-4 in favor of West Point. Yes. It was used to defray the costs incident to the game, the expenses of the visitors, etc., and the upkeep of the teams. The football eleven of West Point and the Annapolis eleven are constituted just as at any other school. The faculty and the governing board make no money out of the contribution, but the athletic association of the school must bear the main burden of the costs, and gate fees are the principal dependence.

Samuel Gompers.

Please give name and address of the president of the American Federation of Labor.

Samuel Gompers, 423 G Street N.W., Washington, D. C.
